EarthSaver Criteria

- 1 "Products contains at least 20% of recycled materials" refers to whether the materials used for the production of the product contains at least 20% of post-consumer waste.
" % of Recycled Materials" - backs up EarthSaver Criteria No.1 - refers to the amount of post-consumer waste used to manufacture the product, expressed in terms of % by weight of the product.
- 2 The ISO 14001 standard contains the required elements that must be satisfied by an organisation seeking registration or certification for its Environmental Management Systems to the standard.
- 3 "Product does not harm or denigrate the environment while in use" indicates that no harmful water and air emissions that degrade the environment are emitted while the product is being used by consumers.
- 4 Product is at least 70% recyclable or biodegradable" refers to how much of the product, expressed in terms of % by weight of the product, could be recycled or biodegraded at the end of its life cycle.
" % Recyclable" - back up EarthSaver Criteria No. 4
" % Biodegradable" - back up EarthSaver Criteria No. 4

Other

"Refillable" - A product which can be refilled.

"FSC Certified" (Forest Stewardship Council) - An International Forest Certification System that recognises products that contain wood from responsibly managed forests that have been independently certified according to the rules of the FSC.

"ECF" (Elemental Chlorine Free) - Paper manufactured using chlorine, but in a way that significantly reduces dioxin in paper production (but does not eliminate it).

"TCF" or "PCF" (Totally/Processed Chlorine Free) - Paper manufactured using oxygen based bleaches rather than chlorine, thus avoiding dioxins and reducing the chemical burden on the environment.

"Environmental Choice NZ" - A label which identifies overall environmental preference of a product within a specific product category based on life cycle considerations.

"Nordic Ecolabel" - Demonstrates that a product is a good environmental choice and is highly regarded in Europe as being one of the highest honours for environmentally friendly products. Environmental Choice NZ equivalent.

"Green Tick Certification" - Identifies that a product has been independently tested against the green tick sustainability standards and has achieved the performance levels required to display the Green Tick. Environmental Choice NZ Equivalent.

"FDA Approved" (Food and Drug Administration) - A federal agency which promotes and protects public health by regulating food, dietary supplements, drugs, biological medical products, blood products, medical devices and more.
